

## 2010 Census Standard Data Products – Descriptions

**Redistricting Data Summary File (P.L. 94-171)** – This file is the first data product released. State and sub-state counts down to the block level are shown for the total population and the population 18 years and over for 63 race groups; and not Hispanic or Latino origin by 63 race groups. State and sub-state counts down to the block level also are shown for housing unit counts by occupancy status (occupied units, vacant units). (Release: February-March 2011)

*The National Summary File of Redistricting Data* contains the same data tables as the state files, but the geographic levels include the U.S., regions, divisions, other areas that cross state boundaries, and a small subset of the geographic areas shown in the state files. (Release: April 2011)

**Demographic Profile** – The profile shows data for age, sex, race, Hispanic or Latino origin, household relationship, household type, group quarters population, housing occupancy, and housing tenure. They are released as individual profiles for each of the 50 states, the District of Columbia, and Puerto Rico down to place/functioning minor civil divisions, as well as for the U.S., regions, divisions, and other areas that cross state boundaries. (Release: May 2011)

The Demographic Profile *Table* will be released on American FactFinder only. The Demographic Profile *Summary File* will be released on the FTP site only.

**Summary File 1 (SF 1)** – This file shows detailed tables on age, sex, households, families, relationship to householder, housing units, detailed race and Hispanic or Latino origin groups, and group quarters. Most tables are shown down to the block or census tract level. Some tables are repeated for nine race/Hispanic or Latino origin groups. The nine groups are (1) White alone; (2) Black or African American alone, (3) American Indian and Alaska Native alone, (4) Asian alone, (5) Native Hawaiian and Other Pacific Islander alone, (6) Some Other Race alone, (7) Two or More Races, (8) Hispanic or Latino; (9) White alone, Not Hispanic or Latino. (Release: June-August 2011)

The *SF 1 National Update File* contains the same data tables as the state files, but the geographic levels include the U.S., regions, divisions, and other areas that cross state boundaries. (Release: November 2011)

The *SF 1 Urban/Rural Update File* provides users with urban/rural population and housing unit counts (down to block) and characteristics for urbanized areas and urban clusters. (Release: October 2012)

The *SF 1 Redefined Core Based Statistical Areas Update File* contains the same data tables as the state files for redefined CBSAs as defined by OMB following the 2010 Census. (Release: August 2013)

**Summary File 2 (SF 2)** – This file shows detailed tables on age, sex, households, families, relationship to householder, housing units, and group quarters. Most tables are shown down to the census tract level. Tables are repeated by 141 race groups, 98 American Indian and Alaska Native tribes/tribal groupings, and 39 Hispanic or Latino origin groups. In order for any of the tables for a specific group to be shown in SF 2, the data must meet a minimum population threshold. The tables in SF 2 will be repeated for each group if there are at least 100 or more people of that specific group in a particular geographic area. (Release: December 2011-April 2012)

The *SF 2 National Update File* contains the same data tables as the state files, but the geographic levels include the U.S., regions, divisions, and other areas that cross state boundaries. (Release: May 2012)

The *SF 2 Urban/Rural Update File* provides users with urban/rural population and housing unit counts (down to census tract) and characteristics for urbanized areas and urban clusters. (Release: January 2013)

**Congressional District Summary File** – This file is a re-tabulation of Summary File 1 for newly redistricted Congressional Districts for the 113th Congress. State-based files will be released in January 2013 and every 2 years thereafter for states where congressional redistricting occurs.

**State Legislative District Summary File** – This file is a re-tabulation of Summary File 1 for State Legislative Districts drawn following the 2010 Census. State-based files will be released in June 2013 and every 2 years thereafter for states where legislative redistricting occurs.

The *Legislative District Geographic Supplement* will be released with this file, containing current geographic attributes for blocks within State Legislative Districts. No characteristics will be shown in this product – only total population and housing unit counts.

**American Indian and Alaska Native (AIAN) Summary File** – This is a national-level file showing the same content as Summary File 2. Tables are repeated for the total population, the total AIAN population, the total American Indian population, the total Alaska Native population, and for numerous American Indian and Alaska Native tribes. In order for any of the tables for a specific group to be shown, the data must meet a minimum population threshold of at least 100 or more people of that specific group in a particular geographic area. (Release: April 2013)

**Characteristics of American Indians and Alaska Natives by Tribe Report** – This report will contain tables on population and housing characteristics for selected American Indian and Alaska Native tribes. (Release: April 2013)

**Summary Population and Housing Characteristics Report** – This report will contain tables on age, sex, race, Hispanic or Latino origin, households, families, housing tenure and occupancy, population density, and area measurements. The lowest level of geography will be the place level. There will be a report produced for each state, the District of Columbia, Puerto Rico, and there will be a U.S. Summary. (Release: May-December 2012 as a PDF only)

**Population and Housing Unit Counts Report** – This report will contain tables providing selected historical population and housing unit counts, and will include tables on population density and area measurements. Data for 1990, 2000, and 2010 will be shown in 2010 geography. The lowest level of geography will be the place level. There will be a report produced for each state, the District of Columbia, Puerto Rico, and there will be a U.S. Summary. (Release: April-September 2013)

**2010 Census Briefs** – The Census Briefs provide the first analysis of 2010 Census population and housing topics, and include graphs and tables. They focus on the most important aspects of the topics, as well as explore the geographic distribution of the subject matter. This series is a basic analytic tool that is useful for introducing the public to 2010 Census population and housing data. (Release: March 2011-February 2012)

**Special Reports** – The Special Reports contain an in-depth analysis of population and housing topics. The reports utilize different modes of analysis, such as discussion text, maps, tables, and graphics, to examine a wide variety of topics. (Release: June 2011-June 2013).

**Public Use Microdata Sample (PUMS) Files** – The PUMS files contain state-level 2010 Census data containing individual records of characteristics for a 10 percent sample of people and housing units. Data will be included for age, sex, race, Hispanic or Latino origin, household type and relationship, and tenure data with identifying information removed, for PUMAs of 100,000 or more population. (Release: TBD)

## **2010 Census Special Data Products – Descriptions**

**Advance Group Quarters Summary File** – This file contains one table showing counts for 7 types of group quarters. The categories include: Correctional facilities for adults, Juvenile facilities, Nursing facilities/Skilled-nursing facilities, Other institutional facilities, College/University student housing, Military quarters, and Other noninstitutional facilities. Data are shown for states, counties, tracts, and blocks. This table will only be available via the FTP site, and is identical to table P42 in Summary File 1. (Release: May 2011)

**Same-Sex Couple Households Summary File** – This file contains one table showing data for the number of households with a partner or spouse that is the same sex as the householder by presence of own children. Data for same-sex spouse are tabulated as reported (that is, not edited during processing to “unmarried partner,” as in other 2010 data products.) Data are shown for the U.S., regions, divisions, and states.

This summary file table and a geographic comparison table will be available on American FactFinder. The summary file table also will be available via the FTP site. Release will be concurrent with the Summary File 1 National Update. (Release: November 2011)
